<p><b>A.D. After Disclosure. The People's Guide to Life After Contact. Richard M. Dolan and Bryce Zabel.</b> Hardcover. 6" x 9" 321 pages. The first of its kind -- an in-depth study of the likely results following an official Disclosure of UFOs. Richard Dolan and Bryce Zabel ask -- and answer -- questions such as: What is the most likely way that Disclosure will occur? Will there be public panic, and if so, how severe? What will the most likely 'blowback' be? Who wins? Who loses? How will Disclosure affect the economy? Our political institutions? The media? Organized religion? Science? How will it all play out in the end -- what will be 'the new normal'? A.D. After Disclosure also asks -- candidly, calmly, and thoroughly -- the important question: who are the Beings behind the UFO phenomenon? What do they want? Keyhole Publishing Co., 2009. "Absorbing and thought provoking" --Jim Marrs, New York Times Best-selling author. "An important attempt to prepare us for what will one day be inevitable." --Edgar Mitchell, Sc.D., Apollo 14 Astronaut. (Autographed by Richard Dolan when purchased from keyholepublishing.com).</p>	<p><b>\$28.94</b>  (\$24.95 + \$3.99 shipping)</p>
<p><b>UFOs and the National Security State. The Cover-Up Exposed, 1973-1991. Richard M. Dolan.</b> 638 pages. Illustrated. The second volume in Richard Dolan's historical trilogy of the UFO phenomenon and cover-up. Using archival sources from the U.S. and Canadian National Archives, professional journals, and direct investigations and interviews, historian Richard Dolan provides a detailed analysis of the critical UFO encounters by military and civilians worldwide. He also studies the politics of the UFO cover-up and our attempts to understand the mystery. Described as "Masterful" by Apollo 14 astronaut Edgar Mitchell, and as "essential reading" by former Ministry of Defence official Nick Pope. Keyhole Publishing Co., 2009. (Autographed by the author when purchased from keyholepublishing.com)</p>	<p><b>\$30.94</b>  (\$26.95 + \$3.99 shipping)</p>
<p><b>UFOs and the National Security State. An Unclassified History, 1941-1973. Richard M. Dolan.</b> Published in 2000, this is the first edition of Richard Dolan's classic history of UFOs during the first half of the Cold War. Called "monumental" by Apollo 14 astronaut Edgar Mitchell, "The best history ever written about UFOs" by Whitley Strieber, and "Superb!" by Don Ecker of UFO Magazine, this is the book that started it all. Keyhole Publishing Co., 2000.</p>	<p>Out of print. Stay tuned for further developments on Volume One for 2011.</p>
<p><b>Hidden in Plain Site: Beyond the X-Files. Richard Sauder, Ph.D.</b> The latest and most in-depth book on underground bases by Dr. Richard Sauder, the world's premier investigator of the subject. Using a combination of archival research, on-the-scene investigation, and first-hand interviews, Sauder takes the reader into a clandestine world that is under the ground and under the ocean. It is a world that we are supposed to think is impossible, and yet -- after reviewing the evidence -- seems all-too-likely. Keyhole Publishing Co., 2010. (Autographed by the Author when purchased from keyholepublishing.com)</p>	<p><b>\$23.94</b>  (\$19.95 + \$3.99 shipping)</p>
<p><b>Underwater and Underground Bases. Richard Sauder, Ph.D.</b> This is the explosive sequel to Underground Bases and Tunnels: What is the Government Trying to Hide? Here, Dr. Sauder lays out the amazing evidence and government paper trail for constructing huge, manned bases offshore, in mid-ocean, deep beneath the sea floor. Bases big enough to secretly dock submarines! Official U.S. Navy documents and other hard evidence raise many questions about what really lies 20,000 leagues beneath the sea. Many UFOs have been seen coming and going from the world's oceans, seas, and lakes, implying the existence of secret underwater bases. 2001.</p>	<p><b>\$20.94</b>  (\$16.95 + \$3.99 shipping)</p>

<p><b>Kundalini Tales. Richard Sauder, Ph.D.</b> Sauder continues his studies of underground bases with new information on the occult underpinnings of the US space program. The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance. Included are chapters on the secret space programme and a 130 page appendix of patents and schematic diagrams of secret technology and mind control devices. Whitley Strieber called this book "...a profound and fascinating journey into the deep of the mind ... a compelling journey ... must reading for anyone who wants to explore the secrets behind and beneath human life and the human world." 1998.</p>	<p><b>\$18.94</b> (\$14.95 + \$3.99 shipping)</p>
<p><b>Underground Bases and Tunnels: What is the Government Trying to Hide? Richard Sauder, Ph.D.</b> Unquestionably one of the truly original studies in modern alternative scholarship. Go behind the scenes into little-known corners of the public record and discover how corporate America has worked hand-in-glove with the Pentagon for decades -- dreaming about, planning, and actually constructing secret underground bases. And newly-uncovered information indicates that the strangeness continues with bizarre, high-tech gadgets like portable, hand-held surgical lasers and injectable electronic IDs as small as a grain of rice. 1995.</p>	<p><b>\$19.94</b> (\$15.95 + \$3.99 shipping)</p>
<p><b>The Thinking Person's UFO Guide. Gordon Chism &amp; Richard M. Dolan.</b> This is a history and personal account of the UFO phenomenon by Gordon Chism, much of which was drawn from Richard M. Dolan's first volume of UFOs and the National Security State. The result is a concise and highly readable short history that will be of interest to experienced researchers and newcomers alike. Foreword by Richard M. Dolan. (Autographed by Richard Dolan when purchased from keyholepublishing.com).</p>	<p><b>\$20.94</b> (\$16.95 + \$3.99 shipping)</p>
